

Residents from Hampton Village have proposed a community garden for your neighbourhood. Come learn more about this initiative and give us your feedback. If there is community interest and support for a community garden, the City will till the land for gardeners this spring.

**PUBLIC INFORMATION MEETING
Hampton Village Proposed Community Garden**

Saturday, April 9th, 2016
1:00 – 2:30 pm
Dundonald School, library
(162 Wedge Road)

Representatives from the City of Saskatoon, CHEP Good Food Inc. and the community garden proponents will be at the Information Meeting to share information about community gardening and the proposed Hampton Village garden. We will also share information on how you can get involved with the garden.

FREQUENTLY ASKED QUESTIONS

What is a Community Garden?

A community garden is a garden where individuals and families can grow vegetables, flowers and plants; the garden proposed for Hampton Village is located on City land. A group of volunteers from the community work with the City and CHEP Good Food Inc. to establish the garden, and then the volunteers operate and maintain the garden. Individuals and families plant, maintain and harvest their assigned plots, and everyone in the garden helps weed pathways, maintain a communal plot, etc. There is usually a small annual fee which is used to purchase shared tools and help with other costs.

What are the benefits of a Community Garden?

Community gardens are a great opportunity to: grow healthy food, enjoy the outdoors, get exercise, learn from other gardeners, meet neighbours and develop friendships. Community gardeners often arrange social and educational events.
