File No. TS 6350-1

Dear Resident:

Re: Traffic Calming and Signage Installation in Hampton Village – Spring/Summer 2017

On June 12, 2017, City Council adopted the Hampton Village Traffic Management Plan.

Public consultation began in June 2016 at a public meeting to discuss traffic concerns and potential solutions within the Hampton Village neighbourhood. Comments from the residents gathered during the meeting and the months following were used to coordinate traffic studies, conduct traffic assessments, and develop a neighbourhood-wide plan. The plan was presented at a follow-up meeting and online in January 2017, allowing residents to provide additional input.

The final plan includes a number of measures to improve traffic conditions within the Hampton Village neighbourhood and is shown on the following pages.

For more information, please visit the City of Saskatoon's website at saskatoon.ca (search "Hampton Village Neighbourhood Traffic Review" at the top right of the home page).

Sincerely,

Lanre Akindipe, P.Eng.
Transportation Engineer,
Transportation Division
