Help prevent graffiti:

- Remove any graffiti as soon as possible. The faster graffiti is removed, the less desirable your property becomes to vandals.
- Make every effort to keep the appearance of your property clean and neat. Litter, broken fences and overgrown shrubs send a message of indifference which can attract vandals.
- Move vehicles, dumpsters and other items away from walls and cover pipes to prevent access to the roof or upper levels of a building.
- Consider applying a special coating to protect surfaces from potential damage caused by graffiti removal.
- Use fences and other barriers to discourage through traffic near your home or business.
- Work with community artists to commission a mural on a persistently targeted wall.

REPORT CONCERNS TO THE CUSTOMER CARE CENTRE

A friend and I were walking in Al Anderson Park recently and we noticed the wires from seven light post had been pulled out of the posts and cut. The exposed wires and access panels were laying on the ground at the base of each light post. We thought it was a potential hazard to the children playing in the spray park nearby and to people walking along the path. Fortunately, my friend had the City of Saskatoon Customer Care Centre number in her cell phone contact list!

She dialed the Customer Care Centre at **306-975-2476**
to inform the City of Saskatoon of this damage.

HVCA was informed later that same day that the light post wires were replaced and repaired. The city does not automatically know something is wrong if we don't let them know. Help keep our neighbourhood safe! Report your concerns!
